

# Lecture 7: The Interactionist Perspective, Part II

## Notes

**Essential Question: How did Phenomenology, Ethnomethodology and Exchange Theory influence Interactionism?**

**What is The Interactionist Perspective?**

**What is Symbolic Interactionism?**

**What “Theoretical Leaps” does the Symbolic Interactionist take with regard to Structure**

**Phenomenology: Describe**

1. Lebenswelt
2. Intersubjectivity

**What is the Social Construction of Reality**

1. Who were the theorists
2. How is Reality Constructed
  - A. Habitualized Actions
  - B. Institutionalized
  - C. Reified
3. Examples
  - A. Greed (Describe the construct)
  - B. Love (Describe the construct)
  - C. Sadness and Masculinity (Describe)
    1. Consequences (Describe)
    2. Data Examples
4. What are Moral Entrepreneurs

**Ethnomethodology: Define**

1. Who was the major theorist?
2. What were some techniques for studying the rules and scripts of interaction?
3. What are some popular uses of Ethnomethodology

**Structuration**

1. Who is the theorist
2. Describe Structuration
  1. Duality of Structure:
    - Medium
    - Outcome
  2. What is a structure
    - A. Rules
    - B. Resources
  3. Duality of Structure with regard to agency
    - A. Constraining
    - B. Enabling

**Exchange Theory**

Peter Blau

1. Similarities between social and economic exchange
  - 1.
  - 2.
  - 3.
2. Differences
  - 1.
  - 2.
  - 3.
  - 4.

Karen Cook

1. Exchange Networks (Describe)
3. Role Taking
4. Generalized Other
5. Significant Other

Randall Collins

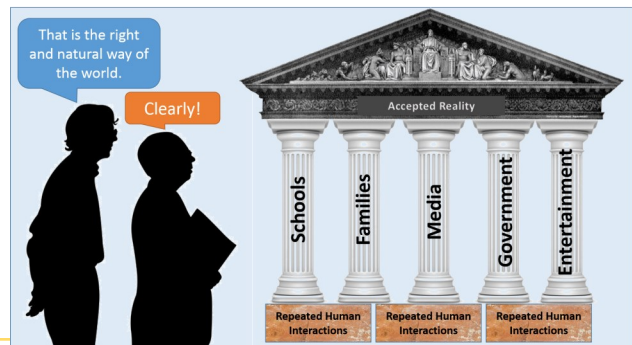

1. Interaction Ritual
  - A. Emotional Energy
  - B. Cultural Capital
2. Interaction Ritual Chain

**Analysis and Evaluation**

What are the benefits of the Interactionist Theory

What are some contributions

1. Research
2. Innovation
3. Critiques

**Write a summary of your notes by answering the Essential Question**
